

SB9

MIXED NOTE VALUE COUNTER AND SORTER

The SB9 has two pockets, a stacker and reject pocket with a variety of useful functions which can keep up with growing customer demands from all over the world.

With a sleek modern design, full graphic LCD and user-friendly interface, the SB9 allows operators to perform daily cash processing jobs without interruption and provides every operator with a more comfortable and efficient working environment.

The reject pocket allows operators to perform daily cash-processing jobs without any interruption. suspect and unrecognised banknotes are automatically diverted to the reject pocket whilst assuring continuous operation.
