

# PAYPOD™ PAY STATION

# CUSTOMER INITIATED CASH PAYMENTS AT THE POINT OF SALE

# SECURE YOUR FUTURE

# TECHNOLOGY POWERED BY INNOVATION

---

## HARNESS IT

Leveraging our expertise of cash handling, we deliver world-class solutions that incorporate more than just the latest technology.

The future of payment automation is now. Introducing the revolutionary Paypod - our newest point-of-sale customer initiated payment system for the retail market.

**WE ARE: YOUR PARTNERS IN  
CASH HANDLING INNOVATION**

## SOLUTIONS FOR RETAIL

There is tremendous value in producing innovative products that match your needs; function the way you operate and incorporate the work flows you prefer.

Now, we deliver a point-of-sale payment automation solution that creates value in your business.

The the all-new Paypod. Two models, multiple configurations, and everything you need to automate your payments in one hour or less.

This is not just technology, this is innovation.

**INVEST IN THE FUTURE**  
**WITH A SYSTEM DESIGNED**  
**TO EVOLVE WITH TECHNOLOGY**

# SEAMLESS INTEGRATION

## INSTANT AUTOMATION

Same day installation and simple integration with any Windows point-of-sale system means instant automation where you need it most.

### PAYPOD PAY STATION

Paypod combines three highly-engineered technologies into one easy-to-install system that delivers the ultimate ease in payment automation. A single unit houses a coin recycler and a note recycler that interface with POSling™ software to instantaneously connect with any Windows® point-of-sale system.

Designed to meet your unique business needs, Paypod comes in two distinct models that offer flexibility and modularity.

The result is a payment solution that contains everything you need for same-day installation, backed by the security and support of Prefect Agencies.

**IDEAL FOR  
INDEPENDENT  
RETAILERS**

# FOCUS ON PEOPLE, NOT PAYMENTS

Change the way you manage cash with Paypod:

- Minimise time spent handling cash

- Reduce shrink by securing cash with a multi-point locking system

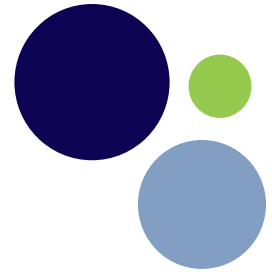

- Eliminate hygiene concerns by eliminating the need for cashiers to handle money

- Deploy instantly with easy interface to any Microsoft® Windows point-of-sale system

- Utilise data analytics to make informed business decisions\*

- Deliver a high level of service by remotely accessing deployed Paypod pay stations\*

\*Select models only

# PAYPOD EMBEDDED

## MAXIMISE YOUR COUNTER SPACE

- Offers superior security and durability to independent retailers
- Maximises counter space with custom embedded solution
- Adds value to underutilised below-the-counter space
- Modular solution designed to evolve with payment technology
- Instant interface to existing Windows point-of-sale system with POSInq software; no integration required

# PAYPOD HYBRID

## EXPERIENCE THE ULTIMATE EASE OF INSTALLATION

- Designed for instant deployment with existing counters and displays
- Flexible solution requires no modification to existing hardware
- 7-inch (17cm) screen offers payment guidance to enhance consumer experience
- Instant interface to existing Windows point-of-sale system with POSlinq software; no integration required
- Modular solution designed to evolve with payment technology
- Offers superior security and durability to independent retailers

# POSLINQ MAKES CONNECTION EASY

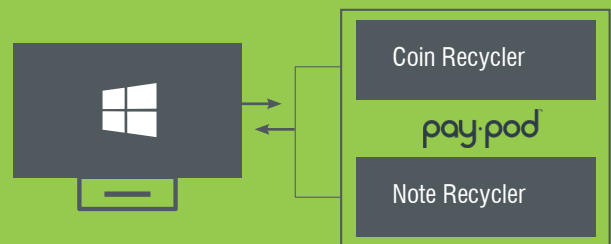

---

## CONNECT WITH US

Every Paypod includes our unique POSlinq interface software.

POSLinq instantly connects any existing Windows POS system to Paypod cash automation devices - no development work required.

POSLinq software scans the POS screen to confirm the payment due. The software validates the incoming cash from Paypod, and controls the release of change to manage the entire transaction.

# NOTE & COIN RECYCLERS MANAGE CASH SECURELY

## COUNT ON US

Whatever your needs, Paypod has you covered. Customise your pay station with the coin and note recycler of your choice. Whichever model you choose, you're in good hands with the industry's most robust and reliable recycling solutions, all supported by a partner you trust.

### SCR ADVANCE BANKNOTE RECYCLERS

Compact and highly reliable, the SCR Advance banknote recycler offers best-in-class performance to decrease float, improve machine uptime and reduce the work associated with cash handling.

- Single note feed, in and out
- 2-denomination recycling
- 120-note recycler capacity
- 600-note cassette

### BNR BANKNOTE RECYCLERS

With modular configuration possibilities, BRN banknote recyclers are ideal for customisation cash automation applications in medium to high-volume retail environments.

- 2 times faster than the SCR Advance
- Single note feed in, bulk note out
- 4-denomination recycling
- 180-note recycler capacity
- 600-note cassette

### CLS COIN RECYCLE

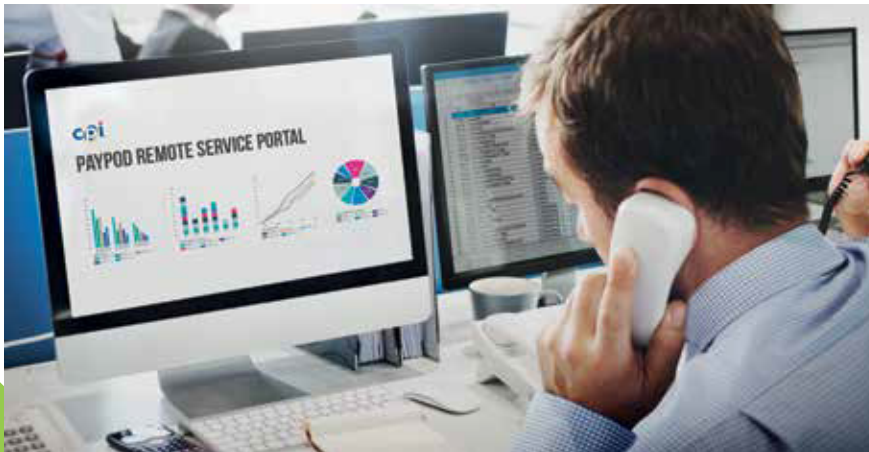

Noted for its high speed and the industry's smallest footprint, the CLS coin recycler offers retailers reduced shrink and improved productivity.

- High-speed transactions increase customer throughput
- High capacity hoppers require fewer refills.

# SUPERIOR SERVICE, AT YOUR FINGERTIPS

## PAYPOD REMOTE SERVICE PORTAL

When you partner with Prefect Agencies, we are with you throughout the life of your product. On site, online and on the phone, we are there when you need us. Every Paypod is backed by our team of technical experts providing customer focused service and support.

The optional Paypod service portal offers a range of benefits to our partners, including:

- Real-time service alerts
- Remote firmware updates
- Remote currency updates
- Remote reset
- Unit performance data and actionable insights
