

SMART CLEAR

SB3000 NOTE CLEARANCE SYSTEM

MINIMISE INEFFICIENCY • MAXIMISE PROFITABILITY

- Easy data export via USB
- TITO off-sorting and scanning
- Clear up to 1000 EGM's
- Effortless reconciliation, discrepancy resolution and compliance

YOUR PARTNERS IN
CASH HANDLING
INNOVATION

ACCURATE CLEARANCES AND EFFICIENT TITO PROCESSING

The SmartClear Note Clearance System is a competitively priced, highly functional EGM clearance system which seamlessly integrates into your floor management or back office system for easy capture of expected totals, allowing for effortless reconciliation and discrepancy resolution.

The unit will efficiently value count notes while simultaneously off-sorting TITO tickets, simplifying the clearance process and creating a full audit trail ensuring compliance.

Clearance data is easily exported via USB back into the floor management system, including Max Gaming, Wildcate and Odyssey, eliminating data entry and key errors while increasing efficiency. TITO scanning and Form 40 acceptance (in QLD), ensures effortless compliance.

Accommodates zone/banks ease during clearance.

FEATURES

- SB3000 3 Pocket Note Counter
- Multi-denominations & TITO off-sorting
- Efficient denomination sorting
- Front USB port for easy data transfer
- Report Printer
