

# SMART CLEAR

## COIN CLEARANCE SYSTEM

MINIMISE INEFFICIENCY • MAXIMISE PROFITABILITY

- Easy to use touch screen console
- Custom designed trolley
- Easy data export to floor management systems
- Supports up to 4x CRT systems

YOUR PARTNERS IN  
CASH HANDLING  
INNOVATION

## EFFORTLESSLY CLEAR YOUR POKIES

A Coin Clearance System for hoppers and drop boxes, the SmartClear Coin has been designed and developed by Prefect Agencies in Brisbane.

Complete with an easy to use touch screen tablet, the software has been written especially for the gaming industry. Includes built in barcode scanner and printer, the whole system can be battery operated.

Simply scan each hopper and drop box and place it on the scale. The system records the data and gives a printed report. This information can then be exported to a USB for simple entry into your floor management system.

The SmartClear Coin Clearance System is the economic choice to make your daily clearances more accurate and efficient.

### FEATURES

- Battery or mains power
- 30kg capacity
- Multi-denominations
- Barcode scanner
- Barcode/ report printer
- CRT number, hopper and coin denomination being encoded in the barcode.
