WHO ARE PREFECT AGENCIES?

Prefect Agencies specialise in providing cutting-edge Cash-Handling, Loss Prevention and Counterfeit Detection equipment, helping our clients reduce, shrink and increase productivity. We aim to partner with our clients, to understand their individual needs and deliver high-quality, innovative solutions to improve their cash handling processes and cash security.

HOW CAN WE HELP YOU IMPROVE YOUR BOTTOM LINE?

Time taken processing and securing cash can be inefficient, time consuming and unproductive. It does not add or contribute to your bottom line, but unfortunately, counting cash is a necessary business task. End-of-shift till reconciliations are often completed after ordinary hours, attracting penalty rates, which has a significant financial impact.

Our range of products are designed to reduce the amount of time taken to process cash, freeing up staff to concentrate on core business activities, like restocking shelves or providing great customer service. In addition, efficient cash-handling has been proven to have a positive impact on the bottom line.

Our products are also designed to protect your takings, securing your cash from robberies and counterfeit notes. Both pose an additional risk to the business owner and can have a catastrophic effect on business.
